” Nature YOU
CAN FEEL. “

NATURALNESS & WELL-BEING

Human and nature in harmony: That is the ideal of all nature and environment lovers. With our WOOD selection, we have come closer to this ambitious goal. The full range is produced using only natural raw materials sourced from sustainably managed forests. Nature itself is the inspiration for our product designs. Authentic surfaces create super unique and natural designs. All WOOD selection floors also support healthy living and well-being. Thus, with these floors, naturalness is at your feet.

WOOD SELECTION ADVANTAGES

- robust & durable
- natural & authentic decors
- tactile surface
- simple Click-System
- suitable for underfloor heating
- protects the environment
- completely recyclable
- hygienic
- incl. integrated cork underlay for selected selected decors

” *Wood Selection* “
CONVINCING IN
EVERY RESPECT.

The authentic WOOD selection floor convinces both with its aesthetics and naturalness, but also with its positive impact on the indoor climate and the environment. Due to its thickness of eight and eleven millimeters and the special surface, the wooden floor is particularly robust and hard-wearing. We give you a 30-year guarantee on this.

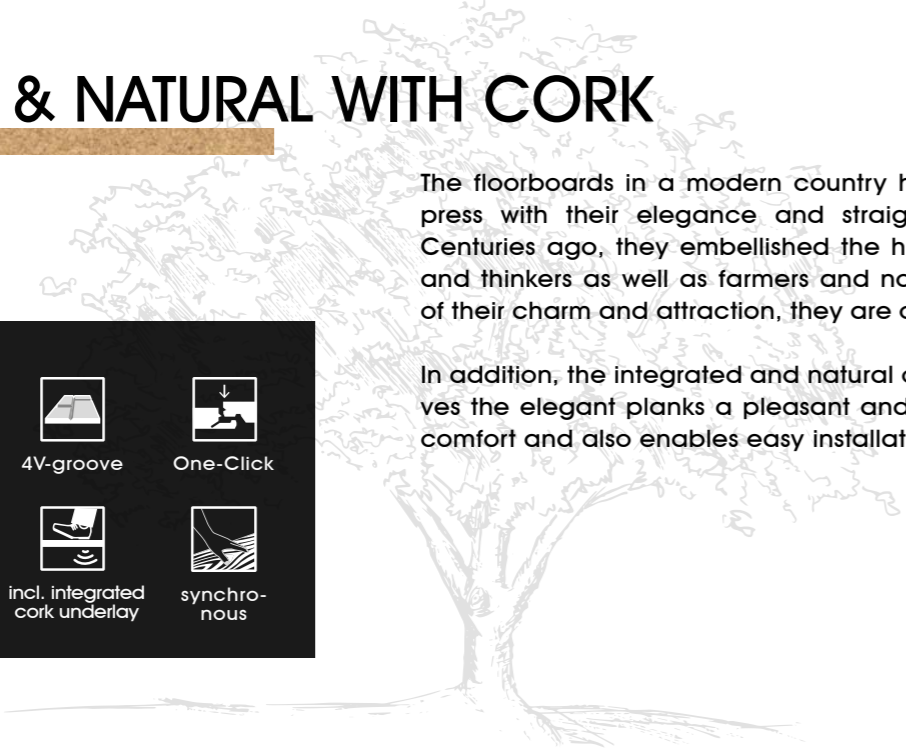

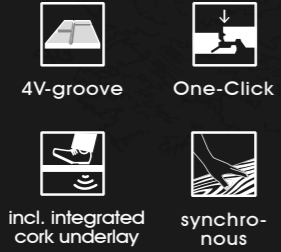

ELEGANT & NATURAL WITH CORK

The floorboards in a modern country house style impress with their elegance and straightforwardness. Centuries ago, they embellished the homes of poets and thinkers as well as farmers and nobles. Because of their charm and attraction, they are our role model.

In addition, the integrated and natural cork footfall gives the elegant planks a pleasant and quiet walking comfort and also enables easy installation.

MODERN

At the end of the 19th century herringbone floors were hugely popular especially in large rooms, halls and traditional-style apartments. Over 100 years later this beautiful visual effect continues to bring a stunningly elegant finish to any room.

We have interpreted the classic herringbone floor in a modern way. Elaborate use of technology ensures a real, tangible and authentic surface structure.

8192 Gobert Oak
 Skirting: 8145-L | Colour: Oak

“

CLICK SYSTEMS

FOLD DOWN

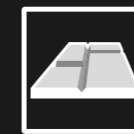

With the Fold Down connection, the plank is first swivelled in from above on the long side. The head edge is then positioned downwards with slight pressure.

ONE-CLICK VERBINDUNG

Bei dieser Klickverbindung wird zuerst durch stirnseitiges Klicken eine Reihe über die gesamte Raumbreite erzeugt. Die nächste Reihe wird längsseitig in die Nutprofilierung der vorherigen Reihe eingeklickt. Zum Verriegeln wird die Diele nach unten hin abgewinkelt und mit Druck von oben bis zum hörbaren Klick eingeschnappt.

APPEARANCE

4V-GROOVE

Grooves frame the individual planks and determine the surface appearance of the floor. The 4V-grooves are both lengthways and crossways around the individual planks, which makes each plank stand out distinctly.

SYNCHRONOUS

The surface of the decor can actually be felt due to the embossing along the wood grain shown and is matched to the decor image. This visually emphasizes the surface of the decor.

IMPACT SOUND

INCL. INTEGRATED CORK-UNDERLAY

The decor is already equipped with impact sound made of natural cork on the underside of the plank and thus enables quick installation.

TO PROTECT PEOPLE AND THE ENVIRONMENT

manufacturer is
Member of the EPLF

**Information sur le niveau D'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).
** Informatie over de emissiegraad van vluchtige stoffen in de ruimtelucht, die bij inademing een toxisch risico vormen, op een schaal van A+ (zeer lage emissies) tot C (hoge emissies).

»EQUIPPED«

EQUIPPED is the accessory brand we recommend for our products. You get for each flooring a suitable skirting that matches the decor, which allows you to hide a cable behind it and with the option of attaching it to the wall via a clip system.

In addition, unsightly bumps, where two bars mounted side by side meet, can be avoided by using connectors. It is also recommended to install EQUIPPED accessories in interior or exterior corners. You save yourself the miter sawing. Rounded off by end caps on protrusions or door frames, the range offers everything needed to complete the installation.

Our EQUIPPED underlay or impact sound insulation also offers a comprehensive and quality range.

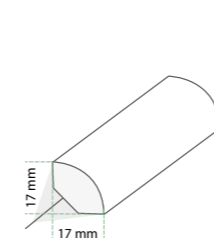

All corners, connectors and end caps are available in the following colours:

Maple
 Beech
 Oak
 Grey
 Walnut
 Silver grey
 Black
 White

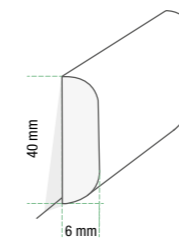

In addition to the matching EQUIPPED strips in the same decor, 58 mm high and 2,400 mm in length, there are other white strips in the following formats:

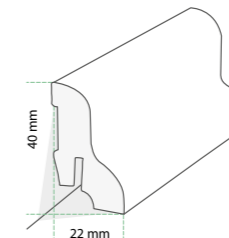

WHITE SKIRTING DIVERS

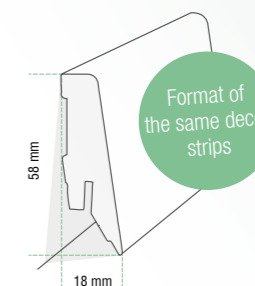

0032
quarter stick
Länge 2,500 mm
