# The modern and refined solution to create a design

With JANGAL Modular Wall, the wall can be designed according to your own wishes and ideas.

The formats and colors available from this series allow for flexibility and freedom in the design of the room. These can be installed according to personal taste, in any formation and based of the individual circumstances vertically or horizontally. Thereby nothing stands in the way of creativity.

Seamless transitions are possible with the help of the connector, so that the overall picture is aesthetically pleasing results.

 Unique possibility to change the direction of the panels in the surface.

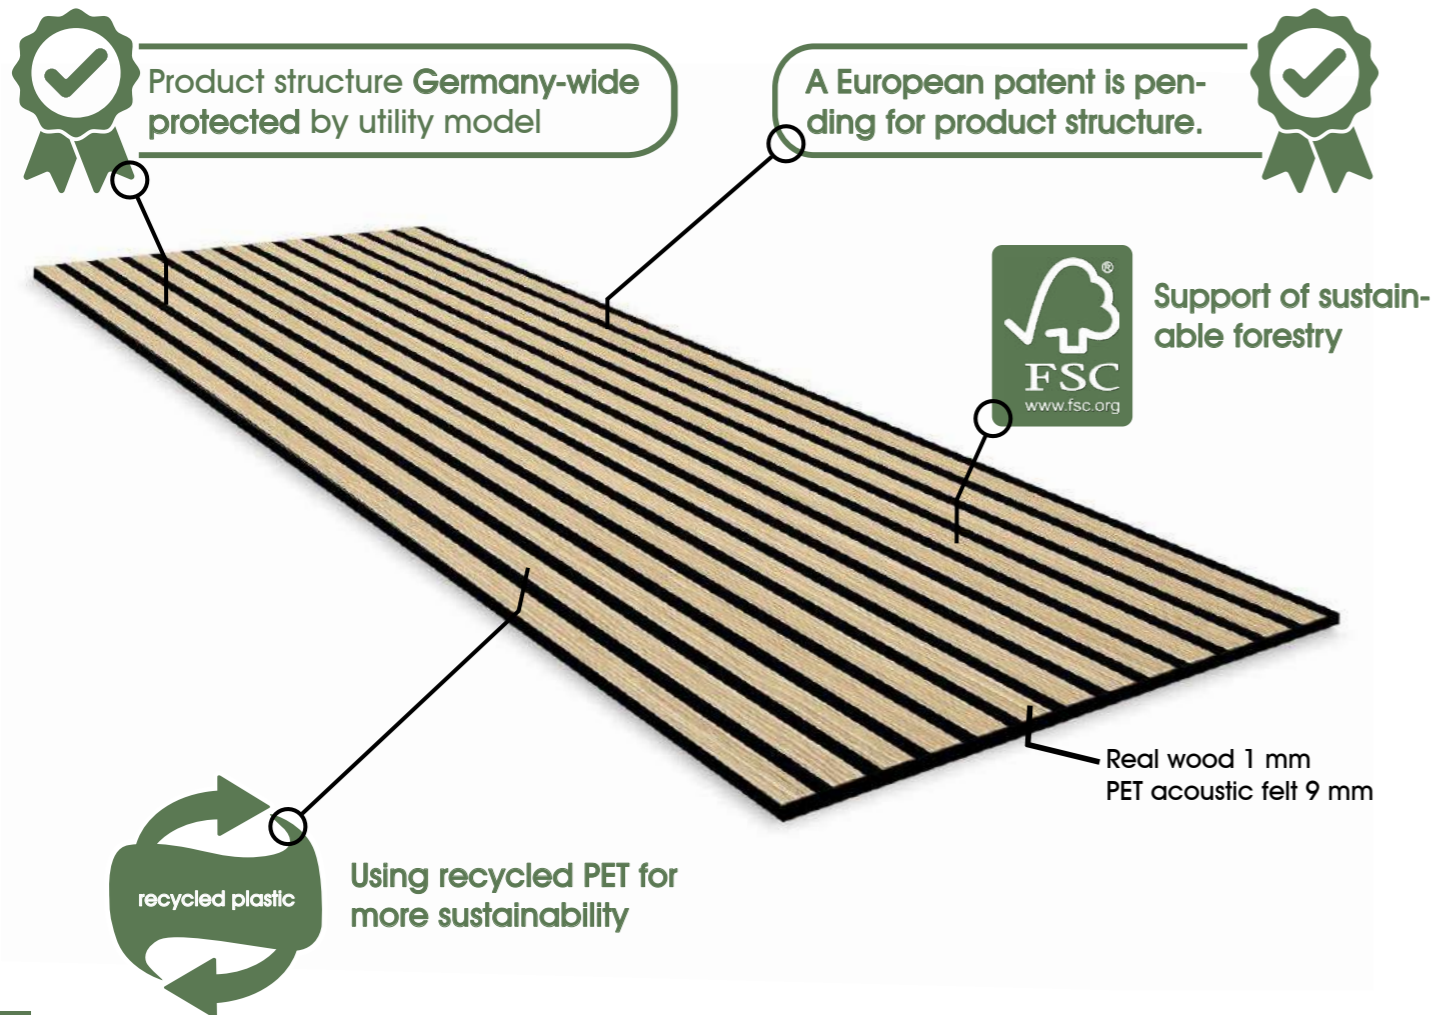

# Taking responsibility through use of sustainable materials

In addition to perfect room acoustics and design, the aspect of sustainability is particularly important to us. Therefore, we at JANGAL attach particular importance that we use sustainable materials in the production process. For example our 9 mm thick

acoustic felt is made of recycled PET materials and the wood we use wood we use comes from sustainable forestry. In this way we guarantee not only sustainable, but also healthy living and life in your apartment.

JANGAL Modular Wall has a special feature compared to other products: the specially developed connector enables installation without visually disturbing joints. A combination of vertical and horizontal panels is also possible, which offers endless freedom in design.

- ✓ The system is protected by utility model in Germany.
- ✓ A European patent is pending for the system and method of arrangement.
